August 22nd 2024

Dear Parents and Carers,

I am delighted that my final communication with you as Headteacher is to celebrate the success of so many of our students in their public examinations.

A'Level Success Stories

Last week our Colmers Year 13 of 2024 received their A'level and vocational results. We are enormously proud that our students will be progressing to such a fantastic and diverse range of university and apprenticeship courses including: Geography, Biochemistry, Mechanical Engineering, Psychology, Digital Marketing, Disaster and Emergency Management, Physics and Astrophysics, Sport and Exercise Science, Law, Maths, Ancient History and Economics.

Destinations include exceptional local universities - University of Birmingham, Aston University, Birmingham City University and Newman University - as well as other fantastic destinations such as Worcester University, Liverpool John Moore's, Edgehill University, Reading University, Leicester University and Keele University.

Great GCSE Results

Today, we have seen so many of our Colmers Yr11 of 2024 finding out that their hard work has paid off. We have achieved a big improvement in the number of students achieving a pass in both maths and English which is so vital to opening doors for individuals, and it was great to hear so many students excited about their next steps. We are blessed with a range of wonderful local colleges that offer a variety of pathways for our students. It was clear to me today that we have managed to instil a strong sense of ambition in our young people, with students opting for a wide range of different courses to suit their individual talents and strengths.

I am especially overjoyed that so many students have achieved the grades they need to stay on in our brilliant sixth form, knowing what a fantastic experience they will have here and also knowing the wonderful contribution these students will continue to make to our school community.

New Chapter

As I hand over to Mr White, I would like to extend one last thank you to everyone in our Colmers Community for a wonderful 6 years as Headteacher. I am certain that the school will go from strength to strength with Mr White at the helm and I wish you all the very best for the future,

Warmest wishes,

Ms E Leaman
Head Teacher
